OPEN LETTER TO CAPITOL HILL

The Policy Record of the Biden-Harris Administration

Dear Members of Congress and Capitol Hill Staff,

Since January of 2021, the Biden-Harris administration has dramatically reversed the successes of the Trump-Pence administration. Americans have been forced to watch helplessly as prices everywhere have skyrocketed, an energy crisis has exploded, taxes have increased, our country has capitulated to international bureaucrats, traditional values have been trampled upon...the list goes on and on. Though Americans have felt the unavoidable effects of the Biden-Harris policies, there has never been a comprehensive catalogue of the specific acts that have led to these disastrous results – until now.

Advancing American Freedom's [Biden Accountability Tracker \(BAT\)](#) serves a critical role in holding the Biden-Harris Administration accountable for its disturbing and harmful actions by publishing each significant policy decision made, executive action taken, or regulation promulgated by the administration that hurts the American people.

How can the BAT help your congressional office?

- Does your legislative shop need ideas of Biden-Harris policies to undo legislatively?
- Does your communications shop need examples of Biden-Harris policies that have regressed from freedom and the Constitution—or otherwise harmed the nation?
- Does your office need talking points for constituent engagements about how bad the Biden-Harris Administration has been for America?

For all of these reasons and more, the BAT will be immediately helpful for you and your entire office.

Check it out today: <https://advancingamericanfreedom.com/bidens-failures/>. You can view items month-by-month or download the full tracker.

And if we may have missed an item for the BAT, please let us know here:
